

# SingleB<sup>®</sup> Antibody Discovery Service

Maximal Diversity for Maximal Possibility.  
Multiple Hosts for Multiple Purposes.  
Dramatically timeline-expediting.

## Service Procedure

## Service Features

### Highly Efficient

Whole process only for 1.5 months  
100 days less than hybridoma

### Higher Delivery

Deliver 50 FACs binders  
Ensure sequence diversity

### "1+1" Double Guarantee

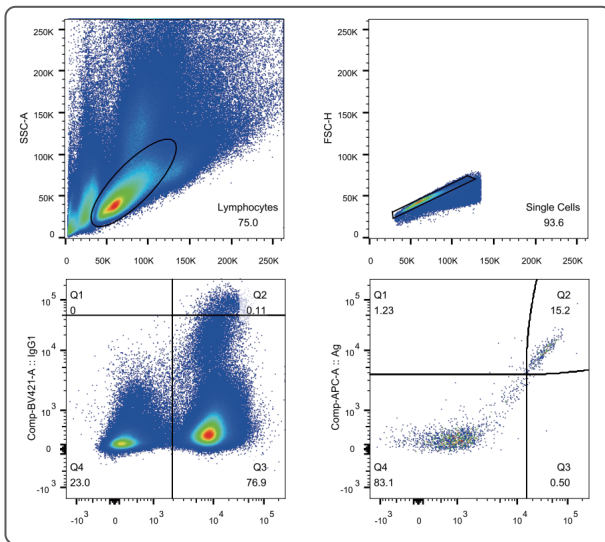

PBC&MBC  
double screening, double guarantee

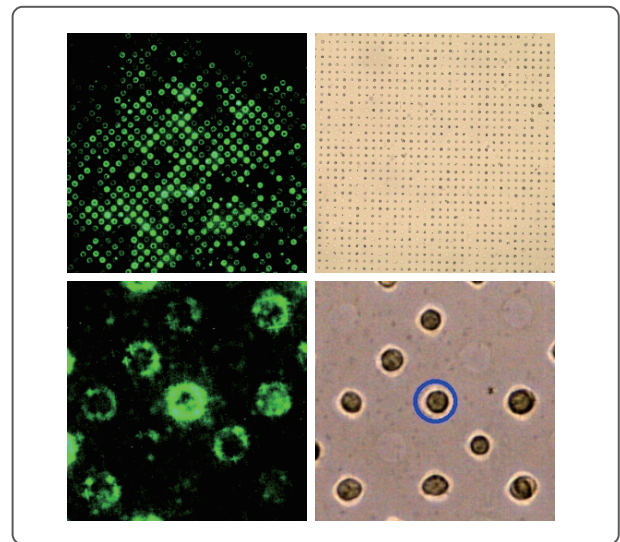

### Fully Tested

Affinity Ranking  
FACs Binding/Blocking

## Case Study

Memory B Cells Screening

DeepLight® Platform Plasma Cells Screening

Experiments were performed according to the protocols developed by DetaiBio.

## Other Services

Antibody Drug Discovery

Recombinant  
Antibody/Protein  
Preparation

Characterization and  
Function Experiment

Antibody Modification  
and Application
